C. C. RICHARDS AND HIS FAMILY TO MOVE

After a continuous residence of forty-eight years in Ogden by Mr. and Mrs. C. C. Richards, they and family will move to Salt Lake City, there to make their future home.

For several years past Mr. Richards' legal practice has required his presence at the capital a considerable portion of his time, and it has been increasing so rapidly the past year that he finds it necessary to move there so that he can devote more of his time and attention to it.

The change will be made in the very near future, just as soon as Mr. Rich ards can adjust his professional busi-

SALT LAKE CITY, Feb. 6 .- That Mr. Bone are under way. the Mexican government has selzed the property of the Pearson Lumber company in northwestern Chihushua and that several thousand of men will be thrown out of work, is the word received today by Anthony W. Ivins. who has charge of colonization work for the Mormon church. Besides a few hundred Mormons, there are more than five thousand Mexicans employed by the company. The company is backed by British and Canadian capital and, besides the huge incrests in that section of Mexico, it controls considerable oil and mining interests in the republic.

According to information received

by Mr. Ivins, the government forbade the shipment of a huge consignment of umber into the United States and then selzed the mills.

About 700 Mormons have drifted that the colonists will have considerable difficulty in retaining their property, according to Mr. Ivins.

GLASS FOUND IN CANS OF SALMON IN

SALT LAKE, Feb. 7.—The agents of the German government are active and doing everything in their power to retard the prosecution of the war by the United States, has been evidenced in Salt Lake by the numerous reports which have reached the office of Lon Bone, special agent of the department of justice, concerning the tampering with foods.

been found to contain ground glass. The sample can was submitted by Frank Gaun, 124 Canyon road, who said that some of the salmon had been eaten by members of her family before the glass had been detected. Emitics were administred and no ill effects resulted.

Several complaints were also registered by families residing in the same vicinity, and four or five cans were examined and found to contain glass, which appeared in form of flakes. The salmon, in all instances, was put up in Seattle, and has had a large sale in Salt Lake.

Mr. Bone said last night that for sev eral months reports of "glassed" and poisoned foods had come into his office. Among the foods is a chunk of beef impregnated with small pieces of glass, a sack of cornmeal, in which ground glass had been sprinkled, and several others.
